LACE 'EM UP, GRUNTS! IT'S GONNA GET MESSY!

Mutants and monsters unleash maniacal carnage on the gridiron in THIS action packed, arcade-style football game. **Mutant Football League** delivers intense online multiplayer action, deep strategy and deadly humor.

Fantastical arenas full of ruthless fans and deadly traps set the stage for mayhem in every contest that allows players to win by highest score or by killing and eradicating their opponents - a feat made easier as teams use their unique "Dirty Tricks" such as "Bribe the Ref" to overturn a call or having a player become "Ginormous" to grow in size and pummel the puny combatants in their path. Whenever a game begins you'll quickly discover the only predictable element is broken bones.

Mutant Football League is the bloody-fun next generation, spiritual successor to the retro classic, "Mutant League Football," designed and produced by Michael Mendheim, the creator of the original game which means you can expect deep strategy game-play, bone crunching, tooth shattering hits, and a roster of ghouls delivering tongue-through-cheek humor. Oh, and blood. Lots of blood.
